

A Detailed Business Assessment

What is It?

- A company wide assessment of your business as it stands today
- Following a face to face overview with My Business Partner all stakeholders will do an individual online assessment on the business using an internationally developed tool called RapidBI (see over)

What's In It For You?

- A comprehensive and detailed report of where you and or your board, your management and your staff see business performance currently and immediate area's for improvement
- A face to face review of results with My Business Partner to develop an action plan to address areas for improvement

My Business Partner

- You are a master at what you do and you love doing it. It is the other stuff that is the trudge:
 - Increase sales
 - Manage people
 - Manage finances
 - Manage clients
 - Governance
- That's why we started My Business Partner. We love business and we have the skills and expertise to help you get back to loving your business too.
- This isn't about quarterly meetings that dump you with a bunch of spreadsheets and reports you'll never use – when you work with My Business Partner, you get on-the-ground support from people who've spent decades at the coal face.
- We'll be there day-to-day to help you to stamp out problems, develop smart, achievable plans and then make sure they actually happen.
